Amex () MC () Visa ()

Exp Date

CVV2

What is CVV2

Card Verification Value 2 (CVV2)

Is a three-digit number imprinted on the signature panel of Visa and Master Card credit cards to help Starr Restaurants verify that the guest has a legitimate card in hand at the time of the order. Starr Restaurants asks the guest for the CVV2 code and then sends it to the card Issuer as part of the authorization request. The card Issuer checks the CVV2 code to determine its validity, then sends a CVV2 result back to the Starr Restaurants along with the authorization. **CVV2 is required on all credit card orders.**

To protect CVV2 data from being compromised, Visa, MasterCard, and American Express Operating Regulations prohibit Starr Restaurants from keeping or storing CVV2 numbers once a transaction has been completed.
